

On the Closure of the Marquette Email, U.S. Phone Number and Social Media Accounts

May 19, 2021

As mentioned in previous posts, I will be graduating from Marquette University and returning to China on May 25, 2021. In preparation of my departure from the United States, I will be closing the Marquette University email account, my U.S. phone number, and social media accounts I registered while I was living here.

Following the closure of these services, I will no longer check or respond to messages delivered via these communication channels. Please visit <https://mrlizhaozhi.github.io/>, my official website, for more information about these changes.

If you are a friend of mine, you should have received my updated contact information or know how to contact me moving forward. If not, I will contact you directly to provide you with that information.

Take care,

Li Zhaozhi
