

Online Assessments and Interviews with the A.S. Watsons Group of Hong Kong

3rd June 2021

On 31st May 2021, I applied to two jobs at the A.S. Watsons Group of Hong Kong. Watsons is a multi-national retail chain headquartered in Hong Kong with operations across the Greater China Region and South-East Asia.

The two jobs I applied for are Business Analyst and Data Engineer. I submitted my applications right before the deadlines after crafting the first draft of my Chinese-language resume. I am very grateful that the company decided to give me a shot for both applications.

I will be spending the next forty-eight hours preparing for the online assessments and interviews. I hope to secure at least one job offer with Watsons because there are not many companies accepting applications from graduates of the Class of 2021. I must do whatever I can to get an offer.

I plan to search for practice questions on-line and practise as much as I can before taking the assessments. I will also continue my Python Basics and driver license studies because they are incredibly important as well.

Effective time management is one of the keys needed to unlock the door of success. Moving forward, I will plan my time carefully using spreadsheets and timelines so that I am fully prepared for both assessments and interviews.

I am keen to succeed and will share with you updates as I move forward with my applications. I look forward to kickstarting my career at A.S. Watsons!
